Information about this drug

Campath® (Alemtuzumab)

Campath® is covered under Medicare Part B when dispensed from the physician's supply. Single doses of Campath® greater than 30mg or cumulative weekly doses of greater than 90 mg should not be administered, since higher doses are associated with an increased incidence of pancytopenia. Dose escalation to the recommended maintenance dose of 30 mg administered three times per week is required.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
