Information about this drug

Exjade® (Deferasirox)

Exjade® has not been well studied in geriatric patients (65 years of age and older). Exjade® should be used cautiously in the elderly population due to an increased risk of acute renal failure.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
