Re: Geodon® (ziprasidone): Quantity Limit Exception Form: Please respond.

- Please complete the attached Geodon® (ziprasidone) Quantity Limit Exception Form
- To expedite the review process please complete all requested fields.
- Completed forms should be faxed to: 1-866-868-0858. It is not necessary to fax this cover page.

Please note: By signing the attached form you are certifying that the treatment requested is medically necessary. No contraindications are present and precautions have been considered. You will be supervising the patient's treatment. Supporting documentation is available in the patient's record. Signature on this form attests to the fact that the corresponding ICD-9 code has been documented in the patients chart and submitted on a CMS- 1500 form.

Information about this drug

Geodon® (ziprasidone)

Expert consensus statements from the J Clin Psychiatry recommends the target dose in treatment resistant patients should not exceed 220 mg/day. Expert consensus recommends maximum dose in patients > or =65 years of age be limited to 140 mg/day. Higher doses may increase risk of QT prolongation. The maximum oral daily dose under our quantity limit program is 240 mg/day; higher doses are not supported by the literature or experts within the field of psychiatry.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
