Information about this drug

Intron A® (interferon alpha 2-b)

Interferons should be used cautiously in patients with bone marrow depression, severe cardiac disease or diabetes, renal or pulmonary disease, infectious, neuropsychiatric conditions or renal dysfunction. Intron A® should be administered cautiously in the elderly population. Post marketing surveillance revealed a greater incidence of adverse effects in the elderly compared with younger patients.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
