Information about this drug

Nexium® (esomeprazole)

Oral and intravenous (IV) formulations of proton pump inhibitors (PPIs) offer equivalent gastric acid suppression. Intravenous Nexium® should only be utilized for a short term basis (up to 10 days) for patients unable to tolerate the oral formulations.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
