Information about this drug

Oxandrin® (oxandrolone)

Oxandrin® should only be considered a tertiary agent for use in patients undergoing protein catabolism associated with prolonged corticosteroid use, extensive weight loss, or bone pain secondary to osteoporosis.

Cachexia is defined as a loss of 5% if body weight over one month and 10% if body weight over one year.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
