Re: Rituxan® (Rituximab): Prior Authorization Request Form: Please respond.

---

- Please complete the attached Rituxan® (Rituximab) Prior Authorization Request Form
- To expedite the review process please complete all requested fields.
- Completed forms should be faxed to: 1-866-868-0858. It is not necessary to fax this cover page.

**Please note:** By signing the attached form you are certifying that the treatment requested is medically necessary. No contraindications are present and precautions have been considered. You will be supervising the patient's treatment. Supporting documentation is available in the patient's record. Signature on this form attests to the fact that the corresponding ICD-9 code has been documented in the patients chart and submitted on a CMS- 1500 form.

### Information about this drug

---

#### Rituxan® (Rituximab)

Rituximab should be considered an absolute last line agent in the treatment of rheumatoid arthritis. Patients should fail multiple standard therapies (e.g., methotrexate, Humira®) before progressing to rituximab. The FDA recently released a warning against the use of rituximab in patients with rheumatoid arthritis and lupus due to cases of progressive multifocal leukoencephalopathy, which resulted in fatalities. If rituximab is approved for rheumatoid arthritis, consider employing only 500 mg. In one trial, a 24 week ACR response was observed in 55% of patients who received the 500 mg dose vs. 54% who received the 1,000 mg dose (Emery P. Arthritis & Rheum. 2006;54(4):1390-1400)

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

**Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.**
