Information about this drug

Sutent® (sutinib)

Sutent® will be approved only for FDA approved uses. Sutent® should be used cautiously in patients with pre-existing cardiac histories as reductions in LVEF and/or elevation in blood pressure have been observed.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
