Re: Zyprexa® (olanzapine): Quantity Limit Exception Form: Please respond.

- Please complete the attached Zyprexa® (olanzapine) Quantity Limit Exception Form
- To expedite the review process please complete all requested fields.
- Completed forms should be faxed to: 1-866-868-0858. It is not necessary to fax this cover page.

Please note: By signing the attached form you are certifying that the treatment requested is medically necessary. No contraindications are present and precautions have been considered. You will be supervising the patient's treatment. Supporting documentation is available in the patient's record. Signature on this form attests to the fact that the corresponding ICD-9 code has been documented in the patients chart and submitted on a CMS- 1500 form.

Information about this drug

Zyprexa® (olanzapine)

The manufacturer's recommended maximum dose from the package labeling for olanzapine is 20 mg/day; however, evidence supporting higher doses for acute therapy and in treatment-resistant patients have been published. Expert consensus statements (J Clin Psychiatry) recommend that the highest acute treatment dose of olanzapine be limited to 40 mg/day, while the target dose in treatment resistant patients should be from 25-40 mg/day. The maximum dose in patients >65 years of age should be limited to 15 mg/day. The maximum daily dose under our quantity limit program is 40 mg/day. Doses in excess of 40 mg/day are not supported by the literature or experts within the field of psychiatry.

You can make an expedited request by indicating this at the top of the attached form. If you request an expedited review, and sign the attached form, you certify that applying the 72 hour standard review time frame may seriously jeopardize the life or health of the member or the member's ability to regain maximum function.

Information on the attached form is protected health information and subject to all privacy and security regulations under HIPAA.
